Colleagues, Employees and Trade Unionists of Audi Forest

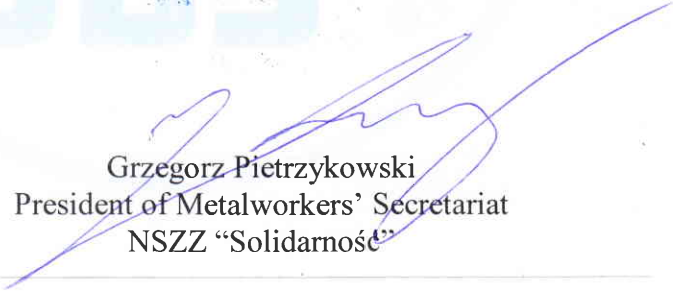

On behalf of the metalworkers organised in the National Secretariat of Metalworkers NSZZ 'Solidarność', I would like to express my solidarity and support to the Audi Forest workers and associated companies in their struggle for the safeguarding of thousands of jobs.

There is no trade union consensus on a transformation that consists of profit maximisation for the owners combined with the callous shutdown of further industrial plants in Europe.

We recall the urgent need for a proactive European industrial plan, based on investment, solidarity, quality jobs and innovation, in line with our climate commitments.

To achieve this, industriAll European Trade Union presented 8 solutions:

- 1. Rule of law must mean the respect of workers' and trade unions rights**
- 2. Policies must be guided by a good jobs compass**
- 3. Training for employment security**
- 4. A real industrial investment agenda for all regions, not blank cheques**
- 5. A right to energy for all, at home and at work**
- 6. A level playing field internationally, based on on good jobs along the supply chain**
- 7. Policy coherence for decarbonisation and circular economy without deindustrialisation**
- 8. Nothing about us, without us!**

Grzegorz Pietrzykowski
President of Metalworkers' Secretariat
